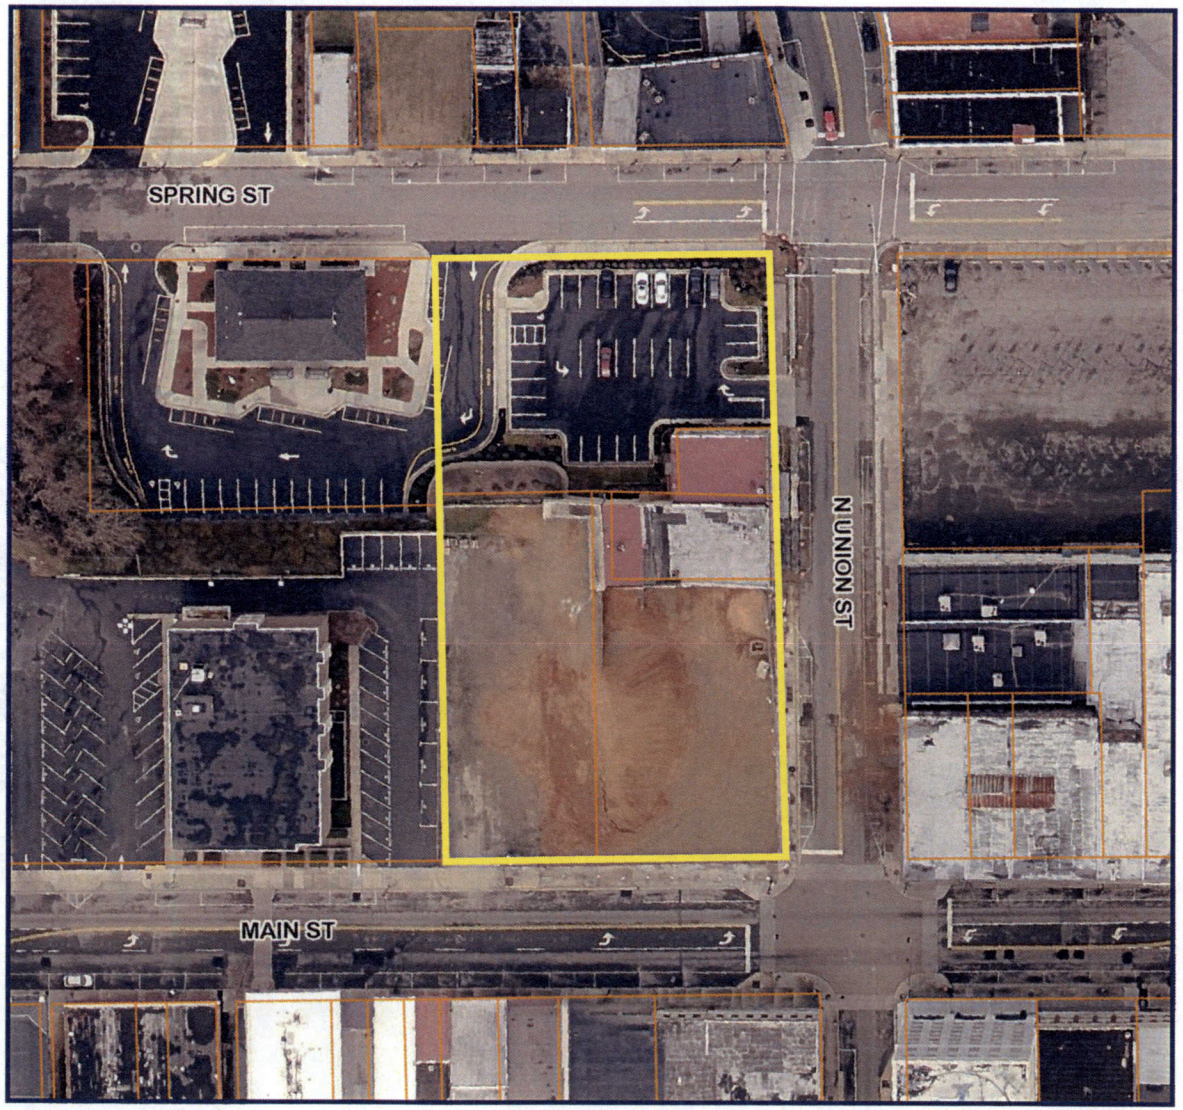
SOLEX ARCHITECTURE

Danville Main Street Parking Deck

2013 Parking Study of Downtown and Surrounding Areas.

A future need for additional parking in the River District.

A preferred site at the intersection of Main and North Union Streets for the future construction of a 617 space parking facility.



SKA walterrobbs ARCHITECTURE + INTERIORS + PLANNING
WALKER PARKING CONSULTANTS
TIMMONS GROUP
DOWNEY & SCOTT, LLC Construction Management Services
SOLEX ARCHITECTURE

Danville Main Street Parking Deck

RFP Requirements

Preliminary design to develop a budget.

A facade in character with the other buildings on Main Street and which is approved by the City's River District Guidelines Committee.

Floor space for retail areas along Main Street and possibly along North Union Street.

Wall space for reproduction of a mural which is currently on a building to be demolished.

SOLEX ARCHITECTURE

- Are there historical elements from the former Hotel Burton that should be referenced in the new deck design?

- Is a monumental entrance desired on the corner or along the street edge of Main or Union?

- The design team is considering security grilles at the street level of the deck on a portion of the side street and rear street. to give pedestrians an added level of safety. To that end, please indicate the appropriateness of these two options, 1) grates and 2) fencing.

- Is it desirable for the new elevations of the parking deck levels to mimic adjacent building facades (broken up individualized sections)?

Option 1 – View from Northwest Corner
